Sheraton Steamboat Resort

Connections are Invited ... to the Link@Sheraton

2009, Steamboat Springs, Colo., ... Guests at every Sheraton Hotels & Resorts and Starwood Hotels & Resorts property, including the Sheraton Steamboat Resort can now stay connected via the new Link@Sheraton. Leisure guests as well as business travelers will enjoy this hi-tech, high-connection amenity while staying at Steamboat Springs' only ski-in/ski-out resort, the Sheraton Steamboat Resort.

The Link@Sheraton offers a unique and convenient online experience that enables guests to surf the Internet, check e-mail, review local attractions and even print airline boarding passes, all while staying comfy and cozy in a living room type setting. The Link@Sheraton provides free Wi-Fi and broadband Internet.

Sheraton Steamboat Resort's new Link is situated in a dedicated lounge area, featuring comfortable seating, opportunities for personal interaction with other guests, and a floor-to-ceiling view of Mt. Werner. Designed to function as a "virtual concierge," the Link@Sheraton website is available on all lounge and guestroom computers, to provide Sheraton Steamboat Resort guests with current local information including weather conditions, nearby restaurants and attractions and local driving directions.

Link@Sheraton provides a sense of community, connectedness, and belonging while on the road, keeping with Sheraton's core value of providing "warm, comforting, connections." The Link provides a place within the hotel where guests can keep up with what's important to them, where they can relax, belong and feel a part of a community. More than just lobby space, The Link@Sheraton invites guests to come out of their room to enjoy the energy and social opportunities of being on the road.
